## Announcement

Our Great Cooperative Sale of Fine Furs Begins Tuesday, August 19

We will place on sale a remarkable collection of fine fur garments direct from one of the largest New York manufacturers of furs.

Our arrangements with one of New York's most prominent manufacturing wholesalers, with whom we have been doing business, enables us to give you this opportunity to select from a \$75,000 assortment—at prices from 20 to 33% below the regular retail cost of these furs—for this week only.

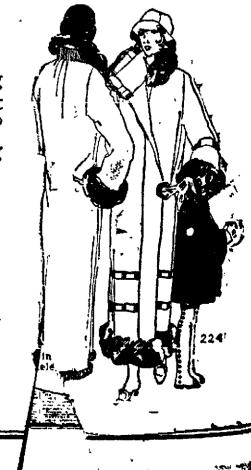

Every one of the hundreds of garments in this great offering is made up according to the very latest fashion, in a manner that would satisfy the most fastidious Fifth Avenue shopper. The workmanship throughout is excellent and the quality on every pelt doubly guaranteed, by the manufacturers and by ourselves. This sale offers an unusual opportunity to secure a luxurious fur garment or neckpiece at a saving of a fifth to a third below the regular prices.

The Coat Models Shown Will Range From \$50 To \$2100 Scarfs From \$5 To \$500

## THE LIMA SUNDAY NEWS

as second class matter June 8, 1924, at the postoffice Lima, Obio, under Act of March 3, 1879 BARL R. LEACH, Managing Editor. By Mail, one year \$2.50. Single Copy, 5c

### SAFETY FIRST!

There are the same number of railroad crossings in Allen-co today as there were last Sunday. There are more automobiles in use today than there were last Sunday, hence more people can ride today.

Help keep down the death rate in Ohio today. CROSS CROSSINGS CAREFULLY TODAY!

### **Business Conditions**

While Wall street remains persistently opfimistic and stocks rose to the highest level suce 1919, mercantile and industrial reviews for the week fail to discover any visible evidence of rapid business revival.

Improvement in sentiment is stronger than actual buying, and trade activity remains only fair. Much of this is attributed to the breaking away from summer, the season of vacations, and the full occasioned by a pre-presidential campaign.

Automobile output increased slightly over preceding periods, but crude oil shows another gain in production, and this industry remains on the Standard Oil subsidiaries are cutting dividends, and even eliminating payments for the rest of the year. Locomotive stocks continue to soar, which presages orders in sight for our own plant, the third largest in the country.

Motor truck buying is better, and inquiries increasing. The cigar industry is back to capacity, several smaller local industries are running well towards capacity, as noted in the Steiner ma chine shops. Railways reported another peak for car loadings, and coal shipments are starting for the lakes on our north and south railways.

The effect of the proposed Nickel Plate merger on Lima is still one for much hope. The acquisttion of the Erie and the Marquette puts Lima in a strategical geographic position. Merger of Marion or Peru shops with those of the Lake Erle here might mean much. Activities of Mr. Ford in the northwest portion of the city are also looked forward to with much confidence

Municipal work is beginning to round up. Main-st nears completion, the sewer work is on its last log, and paving is gradually being comcluded. Building is also at the inside stage, with few new structures starting. Completion of this outdoor work may come about the time our shops resume their pay rolls.

The outlook for Lima is much better than many other industrial cities, and the late fall should see sufficient employment. Money, despite its cheapness in the east and at discount banks, remains tight locally, but building and loans are probably entering the accumulating pe-

### Our Reunion

Paving of Main-st will be completed within a few days. One side is practically finished, having been in use for some time. The other side will get its asphalt top this week.

It is a matter of only a few days until the Main-st of old, the one we will not care to remember, will have vanished. In its place we will have a wonderful new pavement, one of the most modern possible to lay,

Will there not be sufficient reason for rejoicing and celebrating what that becomes a reality?

And such a celebration will be held on Labor day. At that time city and county folk will join in a big jubilce. It will mean more than the mere observance of the completion of a big improvement. It will mean a reunion for all the people in this community, where they may renew friendships and get a wider acquaintanceship. And after all, that is the only thing that really counts.

We must have friends. There are no imag-

inary lines between city and country now. The people of every city are anxious to meet and make friends with those from the rural districts. And

Lima is separate from the country only insotrict for miles in every direction. The family who as much a part of the city as the family residing within the corporate limits who depend upon their rural neighbors also,

The Mardi Gras of Labor day should be a are: threunion for this community for 39 miles and more, in every direction. Everyone is welcome. We hope everyone in this district comes. And we hope it will be so successful that it will be the beclaning of a series of great annual reunions where evervone can meet evervone else.

There still remains that heart-breaking, hair-raisinz quality of ball in the American league that bids fair to prove too much for the heat oppressed brain, if it keeps up much longer. The up and down fortunes of the league leaders has been going on too long. Something is due to crack with as much force as a sun-kissed iceberg. Cobb's Felines managed to poke their necks over the best efforts of Griff's Senators in the most heart-rendering fashion, while Lady Luck cast her winning smile on the world's champs, in a game that was anything but theirs. Ohio-Indiana Batting Averages Show String Of Sluggers. Cops Get Best Of Locos

## DICKEY OF WAPAK IS LEADING WITH STICK

The following averages are up to and including games played in the Ohio-Indiana league Sunday, Aug. 10, and for all the scores received. It has not been possible to get complete tabulated scores, which is the reason for some of the Clubs. Won. Lacomotive obits having played more games than others. It will be relieved from these figures the Dickey of Wapakoneta is the seen from these figures than the been hitting like a house Crane. swatting king. Bible of Lima has been hitting like a house afire, but as the record is only for five games, while Dickey has credit for eleven, the honor belongs to the Wapak slugger. Egan, of Lima is the logical runner-up and shows the remarkable batting record of .432 in 10 games. The others in the favored list are Faust, of Wapak, Weber, of Bryan, with .385; Ruhm, of the same team, with exactly the same percentage; Sweeney, of Angola .375; Wildermuth, New Bremen, .370; Galberach, of Lima, 366; Garlicia. of Wapak, .340.

RUN GETTERS

It will be seen that the honors for scoring are very evenly di
vided. Costelio, of Lima, has a shade the best of it, with 12 markers mine games, while Marquard, of Bryan, comes next, with 11 in ten m nine games. The other leading run getters are: Kuhn, of Angola, with 11 in eleven games and Bartels, of the same team, with a like average. Faust, of Wapakoneta, besides having the honors of one of the heavjest hitters in the league, is right in with the leading score getters. He has eleven in 12 games to his credit.

It is not possible to give an accurate record of base stealing, because of the fact that official scorers have forgotten this important feature. It seem: certain that Galberach of Lima leads in this important part of the game with a total of five to his credit, with Cos-

## "HOUSEHOLD ENGINEERING" MAKES LIFE IN MODERN HOME EASIER AND MORE PLEASANT

SAVOY, III. -- (Special)-IIIItois claims the leading exponent of "household engineering" in Hrs. Henry M. Dunisp of Savoy.

Her home is said to have no superior as a model of connation of household drudgery.

Kitchen, dining room, laundry, in fact every portion of the house, have been given close attion in order to carry out her principles of conveniences and saving of strength and work.

Changing the plebian task of dish washing, regarded by women as the most disagreesble task of housekeeping, to a pleasure, is part of Mrs. Dunlap's program. In this connection she has campaigned all over the state with the Illinois Farmers' Institute

"In my work over the state," she says, "I believe I have heard more complaints against the three-times-a-day duty of dishwashing than any of the numerous tasks of home making, I've never heard a woman or young girl say she likes to wash dishes

"But I believe that as we grow ing and study of household engineering, much of the disdain will be overcome."

Mrs. Dunlap says there are six steps in dishwashing - scraping.

French Scientist Discovers New Ingredient To Dissolve Fat.

Dissolve Fatt.

A French woman now in America reports that a new treatment for cheatry has been found by a well-known French scientist; it is a simple, harmless combination of tagredients put up in a small tablet called "SAN-GRI-NA," which helps sature in throwing off unnecessary fat-forming elements, thus making it impossible for fat to form and accumulate in the bady. Already surprising reports from all parts have been received. Cases of reducing vary from 18 to B pounds in a remarkably abort time, with complete restoration of health and marvelous change in general appearance. While "SAN-GRI-NA" is mostly recommended for reducing, it is also an invalential help to get rid of all-worn-out, tired feeling—does away with puffing, and in many cases entirely relieved high blood pressure. Guaranteed absolutely harmless. Recommended by specialists, physicians and nurses as a sire, positive and simple way to take off from 5 to 6 pounds a week. "San-GRI-NA" is sold at all leading drug or department stores. San-GrI-Na is now sold at Haldwin's, Butler's South Side, Daniel's, Kethure s. Green's or Hunter's Drug Stores. say

## SIGMA PROGRAM **FEATURES**

Bookings for 1924-25 Include Many of the Major Productions of Leading Stars

In keeping with its policy to resent only the best obtainable in feature pictures and programs, the management of the Sigma theatre has arranged a 1924-25 program that vies with any motion picture theatre in the country for elaborateness and pretentiousness.

Some of the season's greatest productions, including "The Sea Hawk." "The White Moth." "Single Wives," "Secrets," "The Perfect Flapper" and many other films have been booked for early engagements

"The Woman on the Jury," with a big ten star cast, has been chosen by the management as the attraction for five days starting this afternoon. This is a drama with complete appeal. Wives will want to know about it. husband, too. It is an elaborate screen translation of the stage play which thrilled New York playgoers for a long run at the El-tinge theatre. Mary Newcomb appeared in the stage role for which Miss Sylvia Breamer was

The last half of the week will bring another favorite star Douglas MacLean who will appear in his latest comedy success, "The Yankee Consul" Its a screen version of the famous Henry Blossom and Alfred G. Bobyn musical comedy and has as its setting, New York, the boundless oceon, Rio de Janeiro and adjacent country. Patsy Ruth Miller, feminine star of "The Hunchback of Notre Dame, plays opposite MacLean.

There is an engaging love story, fight galore and a happy mixture of laughs and thrills to please the most exacting film fan in "The

he players who participated in the punch scene of the picture, "Over the Hill," are brought togeiner again in similar roles in the Limoty Johnson production, "The Spirit of the U S A." the next attraction on the bill of fare 'The Spirit of the U.S A." contams the appealing element which made "Way Down East" and Over the Hill" so endurable—elements which might be catalogued as heart appeal, pathos, tender sentiment, romance, melodramatic conflict and human interest

The next big picture will be "The Perfect Flapper" which has been booked for Labor Day show-Colleen Moore, the versatile star of "Flaming Youth" and Painted People," has the leading role in this First National production and is supported by Sydney Chaplin, Phyllis Haver, John Patrick and Frank Mayo.

## For Rent If We Have Them But These Houses (R) For Sale

Let me say this again to you before you read any further-Be

sensible, invest now. Yes, take my advice and buy a home of your monthly on land contract. Betown. Invest in Lima Real Estate Lima's Real Estate values are ter call us. This place will sound. Lima with 116 manufacturing plants-an unprecedented era of city improvements now in progress. Do you think because we have had just a little depression that conditions will continue very long in the same rut? No! No. A million times No. The United States is too big for that, besides we are the hest and richest nation in this whole world. Now if you are a close observer of things you will surely take note of the quickening up of all Industries. It be gradual but you can just bet your last Dollar that all Industries will again HUM, and you won't have to wait very long to see that either. Now here is the big ides-Now is the time to buy. Now is the time. You can really get some real bargains at this time, and in a very short time you will readily see the benefit of your good judgment, as when things and all Industries are Humming I say, and again. I'll repeat that you will pay more for a home and you will not be able to get it on as good terms as you can buy it today.

## Stop Paying Rent

The same amount or less that your LANDLORD is collecting from you for rent money every month, why you can be paying that on your fect condition. Fine lot with home, and the only step necessary is for you to make up your mind trees. It you want a good inthat you want to succeed, then call into the office select one of the many fine places I have listed, PAY A SMALL AMOUNT DOWN and the balance same as rent.

Here is your chance-2 lots, west side location. These are really worth not less than \$500. You can have them both for \$350. Will lot, take part cash, and balance can be arranged. Don't delay as these will make any one a dandy building site, and they will surely increase in value. Take my advice and get these Monday as they don't

I have two 5-room cottages for rent at \$15 each, and you are away from all dust and smoke, and you will get lots of fresh air, both bas rice lawns and large lots. You can have a place for chickens Two really good Suburban homes that can be bought at what you would call sacrifice prices. Both are west side locations, and it is needless for me to say to you that they will increase in value, as you are acquainted with West Side Values. No information over the phone on these. One has 4 rooms and large let, the other has 5

Thirty Issues Mount to New High Levels

Market Largely Influenced by Reparations Agreement

LIBERTY BONDS

NEW YORK - (By Associated) Press) - Thirty stocks mounted to new high levels for the year in Saturday's brief but active session of the stock market, which was featured by a brisk demand for the standard industrial shares. Buying was influenced by London cables stating that the allies and the Germans had reached a compromise agreement on the evacustion of the Ruhr, and by the more optimistic tone of the weekly mercantile reviews and the probability of a long period of

ping back to 109 3-4, for a net gain of one point on the day.
American Can closed more than 2 points higher at 131 3-8 after touching a new peak at 131 3-4. Baldwin touched 125 and then eased to 124 1-2, up 1-4. Copper provided seven of the day's new highs altho some of the net gains were small. Amer-

ican Smelting led this group with a net gain of nearly 1 1-2 points at 73 3-8, Kennecott and Magma heing among the others to attain new peak prices. Shares of motor companies engaged in the manufacture of trucks made the best showing in the automobile group, all the Mack Truck issues

National Lead also lost a point on realizing sales. Foreign exchanges stiffened moderately but trading was relatively light. Demand sterling ruled about a cent higher around \$4.55 and French francs were quite active around 5.70c, some of the recent buying representing the transfer of funds from the United States to Canada for investment because of the low interest rates prevaling here.
